Aguttes, Lyon-Brotteaux:

The Lyon-Broteaux train station was built between 1904-1908 by engineer Victor-Louis Rascol and architect Paul Arbaut for the PLM railways company. It allowed to connect the Paris-Marseille

and Lyon-Geneva train lines.

This building was listed in 1982, and restored in 1988. Since 2008, Aguttes there performs auction activity.

The concourse, Salle des pas perdus, (see overleaf), in which pre-sale viewings and auctions are held today, is an officially listed historical monument.

It still has its original decor depicting once served destinations, created by the painters Charles Lacour, Antoine Barber, C. Vitrier, and Clovis Terreire.
